Comments: tread very carefully on our lands

As a life-long lover of our wild lands, I urge the Forest Service to tread very carefully on our lands...

our lands, not your lands, not commercial interest's lands.

As a country, we are drowning in stuff, we do not need to continue to extract resources from our lands...our lands, our forests, they protect us from the effects of climate change.

Thank you.

Joan Gieseemann

Portland, Ct
