Comments: We oppose this massive expansion to Mission Ridge. Placing hundreds of homes in a very high fire risk area with only one route in or out is a dangerous mistake. What will happen to Squilchuck road with hundreds or thousands of additional vehicles including large construction rigs? How will Mission keep their claimed "small mountain vibe" with thousands more people? How will those of us who moved to the heights for peace ever have it again with loud construction and bumper to bumper traffic up the whole mountain?

This is pure greed, and it will come at the expense of the animals, plants, and people who call this mountain home.
