Comments: I am looking forward to the much needed upgrades, improvements, and new terrain. I have been skiing at Mission Ridge since the mid 1980s and it has never been changed "it's literally a time capsule." In order to compete with other PNW and OR and ID ski resorts Mission Ridge needs to advance into the 21st century. Our community has a wonderful winter recreational resource right here - please let Mission Ridge rise to its full potential by including terrain for beginning skiers, and cross-country skiers, and include snow shoe trails, and snow mobile trails. Why take local, state and regional money to other ski resorts and other economies?
