Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

We need roadless areas to preserve ecosystems, protect wildlife, and allow humans to escape city life and rejuvenate, as well as preserving wild lands for future generations.

I have not been in the Great Burn, but would love to visit.

Please protect the entire Hoodoo Roadless Area.

Motorized vehicles disturb wildlife. I just read an article about the impact of backcountry skiers on bighorn sheep in the Tetons, and they were self propelled: not even using snowmobiles. If humans on skis affect wildlife enough to cause their numbers to decrease, imagine the impact of snowmobiles and motorcycles.

Please protect Cayuse Creek and Kelly Creek as Wild and Scenic rivers.

We need roadless wild areas now more than ever.

Please use your power to protect these beautiful areas for us and for future generations.
