Comments: I agree that the presented Mission Ridge project as is would be too large an ambition. Not enough focus has been given on the fact that Squilchuck Rd. Is the only access other than the loop Rd, going East. The threat of fire is a serious concern in the Mission Ridge area especially with a bottle neck Road and we all know from experience how devastating that can be even with mitigation. It also isn't clear where all the water to provide for a project of this magnitude is coming from. The congestion caused while Mission Ridge Ski Area is operating also could be a problem. I lived up past Wenatchee Heights for ten years and skied at Mission Ridge so my observation is from personal experience there. Having seen Elk, bear & deer in that area I'm also concerned about maintaining an adequate wildlife corridor.
