Comments: I am extremely supportive of the Mission Ridge expansion plans. They will dramatically improve the skiing experience for a wide range of the WA community, including both new and experienced skiers. It will also increase the business impact of the ski area on the local Wenatchee economy, which is great for both the area and the state. We live in Seattle but are season pass holders at Mission Ridge. We visit ~8 times per year for a weekend and do this as the skiing experience is far superior at weekends than the ski areas in Western Washington. For this to continue and for Mission Ridge to be successful, the expansion and improvements described in the expansion plan are essential.

thx for listening - Professor Ian Gorton
