Comments: I just wanted to voice my wholehearted support for this expansion plan! My family and I are incredibly excited about the future of Mission Ridge and the benefits for the region.

I've watched the expansion video explanations, read about it on news sites and feel reasonably well informed on the plans so far. My only concerns are how best to mitigate the disruption on Squilchuck road during the 10-15 year plan. That's a long construction time and road damage and traffic needs to be factored in.

But we are all for the new expansion and hope this passes and begins quickly!

I hope the government in all capacities will help support this project as well.

Thank you!

Jacobe
