Comments: I do not support the expansion project.

I am concerned about impacts re: water use, sewage impacts, impacts to the viewshed, traffic impacts to a narrow road, impacts to area affordability for local residents and workers, power load impacts, and the loss of what is (currently) an affordable local family ski area. If the project is improved, I fear the "Crystalization," aka this small scale, laid back area becoming more like the teeming, congested monster that the Crystal Mountain Resort has become.
