Comments: Hi, I've been going to Mission Ridge since I was 10 years old and now our entire family has seasons passes. I own a large software company in town and would love to support the expansion project. Mission ridge is also one of the main attractions we share with friends who are traveling or when we want to entertain business folks from out of town. We would love to see Mission Ridge grow while maintaining the small town vibe that we all love. It has been an integral part of our community and serves our families and businesses tremendously.

Sincerely, Nathan Vorwerk
