Comments: Dear Official,

On Wednesday, March 11th I made a trip to Mesa Az from my home here in Overgaard. When I go there I usually take the Bush Hwy exist that takes one by Saguaro Lake, and along the Lower Salt River, and across the Blue Point Bridge. About a mile before, and after the bridge, I noticed signage along the road, and On the roadway; "Watch for Horses" which was new to me since my last trip to Mesa. I believe that this area falls w/l the Tonto National Forest and Maricopa County.

I've heard of Wild Horses being along/near this area, and applaud the Officials there for their PROACTIVE and SENSATIVE response to their Wild Horse issue. I didn't happen to notice any horses along the way, but there were several people out looking for them to take pictures of them.

I thought to myself, "Why can't our Apache-Sitgreaves Forest Officials think like that, rather just a Culling/Killing them Proposal? This Tonto Forest area has even less Grazing Grass being in the desert. Seems to me we need to have better/intelligent A-S Forest Officials making up Proposals.
