Comments: I have been supportive of Mission Ridge Ski Area since I graduated from high school in 1973. I am truly excited about the expansion project as explained and outlined. This provides an opportunity for our Central Washington community to continue to provide exceptional service to the state and region in general. With expanded service such as overnight accommodations and an expanded ski area to serve more and beginning skiers this will provide an expanded employment and economic base.

Please review, recommend and endorse this project. It appears that considerable thought and effort are involved to make this an exceptional opportunity for all.
