First name: Ronald

Last name: Eastman

Organization:

Title:

Comments: I really like what Mission Ridge is trying to do and feel they have the staff and organization to complete the task.

The towns of Wenatchee, East Wenatchee, and several surrounding towns are suited well to have Mission Ridge compliment their existence. I've never quite seen an area where the people are so interested in the outdoors, being somewhat physically fit and mentally fit, while also suppling the natural benefits that nature has given us to preserve.

I feel the Mission Ridge project would be great for the community and the State of Washington, even for someone like me at over 70 years of age. Ron Eastman
