Comments: Mission Ridge is already an essential business for Wenatchee and the surrounding communities.

This expansion will make the Wenatchee area a world class destination. It is also great for the state of Washington. Today there are only day trip resorts in our state. With this expansion, we can share with the world that we now have a modern ski village at an amazing mountain with terrain and snow quality to rival most resorts in Colorado and Utah. This is a once in a lifetime chance to make this impact. Please approve.
