Comments: Hi, I am all for the expansion. Mission Ridge has obviously proven they are good stewards of the land by running a professional, safe, educational and family friendly operation. I like that they are independent from other big name resorts and are accountable to themselves and the state of WA rather than a large corporation in another state. We need more terrain and luckily we have plenty of it. My vote is yes for the expansion/modernization. I'll continue to bring my family and 'carefully' spread the word about Mission Ridge.
