Comments: I don't agree with turning a ski hill into a resort. There is never enough snow to operate lifts into the expansion zone and housing on hill is a waste. We live 11 miles from the bottom of the canyon so close you can go home for lunch. Let's keep the top of our mountain natural. We can hike and enjoy nature. Let the elk, deer and other wildlife live in peace without houses. There is enough space in the valley as we tear out orchards to accommodate people. Let the forest be!!!
