Comments: Hello,

As an avid snowboarder, bicyclist, and outdoors enthusiast I wanted to voice my approval of the expansion plans that are being discussed for Mission Ridge. The additional space will allow for so many more families to have a safe way to enter the outdoors. This type of family activity space benefits the entire community by encouraging healthy living and bringing in additional tourism dollars for all manner of local business. I look forward to seeing so many more people responsibly enjoying the outdoors and the USFS lands with this expansion program.

Cheers!
