Comments: I would love to see Mission Ridge expand the resort to update lifts and lodges, build on-site accommodations and restaurants, and add new snow experiences for those that do not ski or snowboard. I have lived in King County my entire life. As a child, my family skied Snoqualmie and Mt. Baker because of convenience. We lived in Renton and had a timeshare near Mt. Baker. Now that we have a family of our own, we chose to live in Issaquah to be near the city and also Snoqualmie. My son has been competing at the USASA snowboard events so we've had a chance to see all the ski resorts in WA. We often talk about why there are not many onsite accommodations at our WA resorts which we would definitely take advantage of especially during competitions.

What we love about Mission Ridge is it's quaint charm along with amazing views and snowy trees like no other. Mission Ridge's expansion project would definitely attract more people and it would be in my opinion the destination ski resort of WA.

Thank you for your consideration!
