Title:

Comments: USFS,

I support the expansion plans for Mission Ridge. I am 63 years old and have enjoyed skiing at mission ridge starting in my youth with my family. I am retired and live in Manson and am a season pass holder for Mission. I grew up in a skiing family and raised my family as a skiing family, and have always enjoyed the family and friendships that the ski industry affords.

Mission is an integral part of the greater Wenatchee area as well as Grant and Chelan Counties for winter recreation and the support of businesses in the region, related to skiing as well as lodging, food and beverage.

Mission is a family and friend mountain, as contrasted by the corporate ownership of Stevens Pass. This is very important to families, local businesses and to those of us that understand that value proposition.

The growth of Mission as with any business is critical for success and for a future. Please support this expansion.

Garth
