Comments: I have looked at the Mission Ridge expansion plans and see many good things. I definitely think you could be good for the community. I do have a couple concerns. I do not like the idea of chair 5 running up to Windy Ridge area, that should stay a hike my opinion to retain the vibe that Mission Ridge speaks of. Most importantly, I feel the quantity of proposed homes is unrealistic and will put a heavy burden on our infrastructure. As a resident of Forest Ridge, I am very concerned with the traffic problems this could create. I also have geological / landslide concerns as there is movement near this area.
