Comments: Please approve the expansion of Mission Ridge. Washington state skiers are flocking to slopes and even in this abbreviated ski season, I saw lift lines that I have not experienced since the 70's. We have not had new terrain in this state since White Pass added the back bowl and all of our day areas are woefully undersized for the size of the skiing population. I myself hold 3 season passes, Snoquamie, Epic local and Indy. I typically ski 40 to 50 days per year. I had plans to be at Mission this weekend and unfortunately canceled due to the virus. I work at Snoquamie and on a Sunday, if you get 3 runs in an hour you are lucky. In an industry where the perception is that its shrinking. I say no way. Wenatchee is growing and will continue to be a popular retirement area for its excellent recreation. Mission Ridge is critical for the economy of the valley.
