Comments: I'm writing in support of the expansion proposal for Mission Ridge. I am 57 years old, father of 3, and 25 years ago, we moved here to, among other things, be near to a ski resort. All 3 kids went through the ski racing program at the Ridge, and I was a volunteer ski patroller for 8 seasons. We're still season pass holders there for skiing and in the off season, we often hike the ridge and fully enjoy the development year round.

I'm pro-expansion because that's a positive step for the Ridge, for our community and for the booming expansions in our valley.

One concern I have: the Ridge is a forest environment and expansion can really tear that up if we're not super careful. so please allow it, but make them be careful how they take precautions to preserve the environment in the mountain.

Thanks,
