Comments: As far as the expansion at Mission goes I support it 100% I am a life long resident of Chelan County. I have skied at Mission my entire life (age 66), over the years I have been a season pass holder many times and currently as well. I see Mission as tremendous winter asset for the quality of life, pleasure and enjoyment of those living in the greater Wenatchee area. Obviously it also benefits the business community. Please support the efforts to develop this adjunct to the current operation. Thanks for your consideration.
