Comments:

Hello,

I am in favor of the MR expansion. I am a long time skier. My extended families are skiers, boarders & as trained back country enthusiasts with 'leave no trace' as well as being educated in & for the safety of others.

I have no skills related to EA drafts, however, I speak candidly, respectfully and I listen more than I speak. I ski at MR and enjoy the MR skiing community. 22 years of driving transit in King County and downtown Seattle has provided me with skills to speak with a diverse population. In layman lingo, I can relate with alotta different people: I like people.

I love mountains, I love skiing. I am a good steward in what I participate in. I don't know your lingo with regard to Draft EA's, I do know that you are one of the cogs in the wheel of this project. I urge you to participate & complete the task. Thank you for reading my comments.
