Comments: I am writing in regarding the Mission Ridge future expansion plans. I am in full support of the expansion but have a few concerns as an immediate "neighbor" owning property in Forest Ridge. We are full time Forest Ridge residents with current "invited" status by the Noyd family to utilize the current easement allowing ORV- Hiking- Mtn biking access directly from Forest Ridge to the Green Dot road system and beyond. The new Mission Ridge property encompasses portions of this easement in place for Forest Ridge residents. We would really like to see this easement access continue to remain open for Forest Ridge residents as it was created and planned for use by property owners in Forest Ridge.
