Title:

Comments: I am a native of Wenatchee and I spent most of my first 18 years on the mountain at Mission Ridge. My dad was on Ski Patrol, and every weekend we enjoyed the mountain together. I now travel from West Seattle to ski at Mission Ridge. This mountain is glue for the community of Wenatchee and many of us spread across the state of WA. It gives local youth a place to "be outside" in a healthy way. If this mountain were even bigger - it would be even better, and would likely draw more folks, and their money, from further afield.

Wenatchee needs this recreational improvement and I hope that this concession is awarded. I look forward to many more winter seasons at Mission Ridge.

Please help make this happen!
