Comments: i am totally against this logging project. they dont want to let live what livdesl there. this agency wants to go on get alot o fmoney for abusing and slaughtering the animals, the trees, the birds, everythign that naturally lives there. and they want noney in teir pocket to do it. the entire poroject needs to be shut down. we dont need to make this area a logging area. that is the full intention oif this latest assaultl on nature. this lnd shoudl be saved in its natural state and left alone instead of being assaulted to make it a moneygrubing project. that is what this agency does. it is afgter moneygrubbing. it is insane, it is obsecene. it make all of earth less healthy to live in we need nature, peoile have lived with nature for eons. nobody can live with the loggi i ng area that is left after this agency makes it moneys. stop the assault. i also think this needs to be a federal register notice instead of secretive emails.
