Title:

Comments: Nez Perce/Clearwater Forest Plan Revision, We support the no action action alternative and designating the Hoodoo area a semi-primitive motorized area instead of RWA. Access would be snowbikes and snowmobiles in winter and mountain bikes in the summer. North Fork Spruce-white sands and sneakfoot meadows should be eliminated. Snowmobiles been snowmobiling there for 40 or more yrs. NezPerce clearwater already have 1.1 million acres of wilderness....that's enough.
