Comments: Thank you for the opportunity to comment.

At this time is the Forest taking comment for the purpose of scoping? If so, I would like a consideration of commercial services in the Owens River Headwaters Wilderness. As a current Resort Special Use Permittee, I have taken small designated group trail rides into the Headwaters Wilderness. I believe a small amount of guided access is warranted to this area and it is best accomplished with a established outfitting service.

A consideration of number of service days available for a commercial use would be appropriate.

I would also like consideration for some trail maintenance efforts. I am aware that the Inyo trail crews did some work in the area several years ago, and it appears after the 2017 runoff year that there is a need for some trail work in order to maintain sidehill stability.

Please add me to your mailing list and keep me apprised of your developments. Thank you,

Jennifer Roeser
