Title:

Comments: Please allow all user groups to access this public land. It is simply unfair, unconstitutional and frankly insane to allow high powered special interest groups like WWA to dictate public rules. If you had special interests groups as powerful on the other side you would see more input against WWA.

This isn't about special interest groups, it's not about "environmentalists", it's about allowing American's access to the public land they have a right to while also maintaining the natural beauty of the land for generations to come.

You can do this with a well balanced access plan that allows all users to share the land in a responsible way.
