First name: Susan

Last name: Boyd

Organization:

Title:

Comments: I belong to a local ATV/UTV club and prefer Alternative X. We have enough "wilderness" where motorized vehicles cannot go. "We the people" own the land and should be able to utilize it as long as we don't abuse it. Although I'm not a snowmobiler, those riders should also be allowed use of the forests. Non-motorized trails for bikes and horses should also be maintained. All Americans should be able to enjoy our mountains. Small local communities rely on the business that groups passing through them (enjoying the mountains) provide.
