Comments: I disagree with expansion project mostly due to the fact that mission is just trying to keep up with the other resorts. Mission ridge has always been a unique and special place for me and my family. If it expanded, I know lift tickets will most definitely sky rocket and we will no longer be able to to afford visiting. This has always been an affordable and family-friendly resort for us. Other nearby resorts have catered to tourism, raising their prices and sucking every penny out of their visitors that they can. I have been visiting mission frequently in the past years because i feel it hasn't lost its magic yet. It's a smaller mountain and I feel the expansion isn't necessary. There will also be a great environmental impact with expanding the resort.
