Comments: I would like to go on record as being completely opposed to anymore wilderness being designated in Idaho. In my opinion the amount we have is excessive, enjoyed by very few. Let me however be clear that I feel we do need Wilderness Areas. But we also need areas within those areas that are designated multiple use. after all what sense is there in locking up massive amounts nature to cotton only to the very vocal minority? Yes I am aware of the challenges that multiple use brings but they are not insurmountable. Thank you for your consideration.....Reed Cramer
