Comments: I love Mission Ridge resort, for both skiing in the winter and also hiking in the summer months - it is a beautiful place, we are so lucky to have it so close to home. Such a short drive from town, locals love this resort so much, it is one main reason that I live here. I would love to see Mission Ridge expand. I feel that they have been good land stewards and that adding more terrain will just make it more sustainable for future valley growth.
