Title:

Comments: As I was born and raised in Wenatchee, this project is near and dear to my heart. I remember the first season that Mission Ridge opened. It also holds many awesome memories that I will never forget. As I met my future wife at Mission Ridge and proposed to her 2 years later at Mission Ridge, 46 years ago. I met many of my ski buddies that I still ski with today. I was fortunate to work with Gordon West, and Bill Penhallegon, they taught us the true value of the ski industry and respect for the mountain. Moving forward with this project would definitely help promote and enhance the year round activities for the greater Wenatchee Valley communities.
