Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Having lived most of our adult lives in Montana, and long appreciated and experienced the many relatively unspoiled areas of the state, we hope the Hoodoo Roadless Area remains wild. For this to occur, motorized impact should remain minimal. Having reached an older age, we can still hike, but realize many of our peers are limited in their mobility. So some easier access will be needed, but not at the expense of the true nature of the area.

Please strike a reasonable balance, while heavily weighting in favor of the wilderness portion of the area.

Continue managing as a Recommended Wilderness.

53,000 acres for winter motorized access is huge, given the overall size of the area. Please make the motorized area much smaller.

Protect as much of the watershed as possible.

No opinion

Thanks for the work with your diverse constituents.
