Dear Kerry,

I am writing this letter to express my support for the Honey Badger Project. I am in full support on your ideas to manage our forest keeping the diseases and Fires under control.

I support most of the recreational ideas and improvements. I want to express my feeling on some of the single track trails that were purposed to be on road beds I disagree with this as it would make it unsafe and not enjoyable to the users. Please make the trails enjoyable fun and challenging.

The propose trail coming off of # 234 Hells Canyon needs to be tied into road number 437 in addition we would like to tie this in with the re-opening of Straight creek trail and tied into trail #69.

Thank you very much for your consideration of these comments. I am available to discuss any questions or concerns you may have.

Sincerely,

Tom Wuest
