Comments: As an off-road enthusiast my father taught me how to ride a motorcycle on Canfield and how to navigate in the woods. This area should be protected and reserved for all recreational activities especially those that pay for the maintenance of the trails with the OHV stickers. OHV stickers should also be extended to reach mountain bikers as they are considered a vehicle (mode of transportation). As for hikers I don't know if there is a way to manage how they find the trails but maybe a window sticker would be appropriate for them.
