First name: Richard

Last name: Durrant

Organization: Big D Ranch

Title:

Comments: daho and the general public benefit from our national forests when they are properly managed and used. As a farmer, I understand the need to actively manage my lands and resources. With the increased risk of wildfires that we have seen in recent years, I expect the same attention to resource management of the federal agencies.

I support the active management of our national forests, including such activities as grazing and logging. I ask the Forest Service to revise the forest management plan to fully embrace the principle of multiple-use and reject further proposals of Wilderness or Wild & Scenic River designations.
