Comments: I am a frequent visitor to the canfield trail systems. It's close proximity to couer d alene make it an ideal spot to hike, mountain bike, and of course motorized recreation. Every time I visit I encounter all sorts of people enjoying the outdoors. From my experience One group seems to contribute a little more to the cleaning up of trash along the roadside and the clearing of trails. This would be the motorcycle riders. I dont think it's fair or advantageous to close trails a group of individuals that are utilizing the trail system but also contributing to the matenice of said system. Please leave the trails open.
