Comments: Thank you for the opportunity to provide comments on the Nez Perce-Clearwater NF, Forest Plan Revision, Draft EIS. I write today expressing my support of parts of the Forest Service's alternatives as presented in the Draft EIS. I specifically support the proposals of increased timber harvest, sustained livestock grazing options, and no additional designations of any type. As a 4th generation rancher I understand and depend on actively managed and healthy forests. I believe this includes grazing, logging, and fuel load reduction efforts to reduce the risk of wildfire.

I ask the Forest Service to revise the forest management plan to fully embrace the principle of multiple-use and reject further proposals of Wilderness or Wild & Scenic River designations. Again, thank you for your consideration.
