Comments: Hello,

As an ongoing advocate of Wilderness area I want to encourage The Forest Service to continue to protect the entire 151,874-acre Hoodoo Roadless Area as Recommended Wilderness in the revised forest plan. This is important to a stabilized ecosystem and true nature. In addition, the Forest Service should not allow snowmobile use in any Recommended Wilderness Areas. This use is not compatible with protecting wilderness characteristics or potential for designation within the National Wilderness Preservation System. Motorized vehicles or equipment should not be permitted in any Wilderness area as it destructs the basic concept of Wilderness.
