Title:

Comments: Thank you for allowing the citizens to take part in your decision making process. My name is Ott Clark. I grew up on a cattle ranch in Bingham County. My letter today is to show support for keeping the Nez Perce-Clearwater NF open to all uses. I believe that timber harvest, sustained livestock grazing options, and no additional designations of any type are the best use of our national forests.

Farmers, ranchers, and foresters always want what is best for our land. I understand the need to actively manage lands and resources. With the increased risk of wildfires that we have seen in recent years, I expect the same attention to resource management of the federal agencies.

I support the active management of our national forests, including such activities as grazing and logging. I ask the Forest Service to revise the forest management plan to fully embrace the principle of multiple-use and reject further proposals of Wilderness or Wild & Scenic River designations.
