Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

My name is Mark Lannen and I am an avid hiker and backpacker. A few years ago I started exploring the Great Burn Area and have fallen in love with the area.

I strongly urge you to ban any and all motorized and/or mechanized travel in this area. It is a wild, beautiful place that abounds in peace and quiet, which is a rare thing these days. But I believe that peace and quiet and wilderness are essential for human happiness and allowing motorized and/or mechanized travel in this area will destroy what makes it so special.

With best regards

I want the entire 151,874-acre Hoodoo Roadless Area continue to be declared Wilderness.

Snowmobiles are loud, polluting and will ruin what makes this area so special for humans and the wildlife that live or pass through there.

I recommend Cayuse Creek, as well as Kelly Creek and all of its forks be recognized as Wild and Scenic.

Very best regards

Thank you for everything you do to protect these precious wild areas in our country.

Lots of love
