Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am a nature-loving American. I'm a former resident of Noxon, MT, & am 1/16 Blackfeet. This area of land is very important for the conservation of wildlife such as wolverines, and mountain goats. It needs to stay in it's natural state. If not, we risk future generations not having this great area the way it is. Not to mention the fact that we Americans have ruined so many other areas. Let's not do that here. Please honor the native land.

The Great Burn is a place I've never been to before, but it is definitely on my list of places I greatly wish to visit.

I believe that the entire 151,874 acres should remain as it is.

If motorized vehicles of any kind are allowed into the Hoodoo Roadless Area, it risks pollution of this beautiful land, further destroying our planet.

Kelly Creek is home to many cutthroat trout and rainbow trout. The pollution of this area would greatly diminish their number, which would have further adverse effect on the land.

I don't have anything else to recommend.

Thank you for caring for our native, unique wild lands.
