Comments: Comments On DEIS and Wild and Scenic Suitability Report

Dear Plan Revision Email Nez Perce Clearwater National Forests,

I am writing to ask that the Selway, Salmon and other creeks, streams and rivers that you have found eligible for Wild and Scenic designation remain protected as eligible in the new forest plan. I support the protection of these bodies of water, for many reasons. They should be protected for conservation reasons for wildlife and the flora of the area. Please keep these rivers pristine and wild.

Thank you for listening. Please keep these wild designations and all the protections that go along with them.

Sincerely,

Alison Godlewski
