First name: Pavel

Last name: Loboda

Organization:

Title:

Comments: Area described above is very essential for snowmobile riders and provides great opportunity to get out and enjoy wilderness, considering that snowmobile riders usually don't get out until we get at least 60 inches (to avoid hitting objects underneath the snow) there's not way it will harm wildlife or landscape in our beautiful forest that we all care for, please consider amount of snowmobiles registered in ID and don't ignore this major community and great active and healthy style of living.
