First name: Lorelei

Last name: Dove

Organization:

Title:

Comments: I believe that the best option is X, however I do not believe that option will even be considered, so I would hope, at the very least, it will be opened back up to snowmobiles. Getting people recreating in the forest is so important for future generations. Walking, hiking, biking, ATV's, horseback riding, camping, studying nature, the animals. This is our lives and there is no one that loves our forests more than those of us who grew up recreating in it. Please option X, but if not then Option Z. Thank you for your consideration.
