Comments: Nez Perce-Clearwater Plan Revision Comment

Dear whom it may concern,

Montana is a special place for me and many others as a mountain biker. Montana is a travel destination for many people mountain biking whether it is stateside or from Canada, etc. Maintaining bicycle access to trails is important for MT tourism and that's why I support bicycle access to State Line Trail (Trail 738) through the Nez Perce-Clearwater National Forest and ask to restore access to miles 20-27, where it was recently closed. I ask to please consider this and keep bicycle access available and keep MT happy.

Sincerely,

Brett Allen
