Comments: Nez Perce-Clearwater Forest Plan Revision - Support for Historical Motorized Use

Dear Forest Planners,

I have hiked, biked, snowmobiled, snowbiked and ridden off-road motorcycles in the Nez-Perce-Clearwater Forest for years. I support maximum legal access for motorized recreation of all kinds in the forest. Further, I support increases in both off-road motorized travel opportunities and dispersed camping opportunities. In addition, the Great Burn area should be open for over-the-snow motorized access in winter.

Thank you for your time and consideration,

Doug Deaton
