Comments: Nez Perce-Clearwater Plan Revision Comment

Hi.

I am writing to ask you to maintain bicycle access to the State Line Trail, FS Trail 738, through the Nez Perce-Clearwater National Forest and restore bicycle access to miles 20-27 of Trail 738 , where it has recently been closed.

Please also maintain access to the State Line Trail by way of other existing singletrack routes.

The Forest Service needs to recognize the Idaho and Federal Roadless Rules, which prohibit resource extraction on these landscapes and preserve the wild character of the land and forests for the enjoyment of the citizens and visitors of the United States.

In the longterm eco-tourism, social benefit, and Environmental Sustainability of this forest, and others, provides greater economic value to this country than extraction industries do.

Thank you for your time and consideration.
